

Florida player becomes Platinum Life Master!

*Congratulations to Bruce Lang,
a long time Board member of District 9 and Unit 128!*

Mr. Lang attained the needed 10,000 points in November 2023 and his achievement was recognized by the ACBL in December 2023. Bruce began his bridge career in 2012 and shares his bridge journey hoping others find inspiration to try the world's most fascinating game.

Bruce's Story:

I never played bridge until 2012. After sitting in for an aunt as dummy who needed to take a phone call, I was hooked. When I got home, I downloaded bridge base and started to practice. When just learning the game, I didn't understand why others were able to garner more tricks than I did in a particular contract. Being a person who likes to be successful, this issue motivated me to study, learn, and forge special bridge partnerships that helped me attain my bridge goals. My proudest accomplishment has been coming in second place at two NABC+ events. These events demanded playing 3 days of platinum pairs against some of the best players in the world. I've been playing professional bridge for the last 5 years and love this game as it enriches my life immeasurably.

In addition, Mr. Lang is part owner of Jourdan's bridge club in West Palm Beach and provides mentorship and lessons to many of the club's membership. Bruce also serves on the District 9 Board of Directors as Vice President, the Unit 128 Board of Governors as the Education Liaison, and frequently speaks at Florida Regional Tournament. If you would like to connect with Bruce Lang, he welcomes you to email him at: bruce.edward.lang@gmail.com.

The membership of District 9 and Unit 128, wholeheartedly congratulate Bruce on his achievement of Platinum Life Master! We look forward to seeing you at a regional tournament very soon to offer our in-person congratulations!!
